

# NTUST Course Auto Selection Tool Guide v1.3

## Usage :

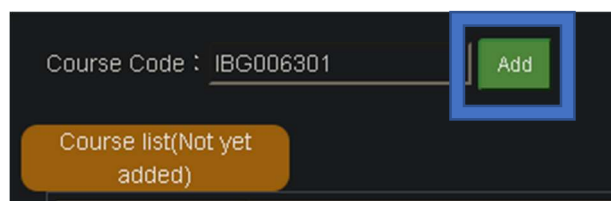

1. Execute **SelectionTool.exe** (double click it)
2. Choose the selection type :  
(Adding or Dropping 加退選課 / Pre-registration(After the draw) 電腦抽選後選課)
3. Enter the course code you want to select, multiple code must split by comma.  
EX :
4. Go to <https://courseselection.ntust.edu.tw/> grab your cookie. (See tutorial below)
5. Adjust the time interval for selection. (**Warning : too frequently will be banned by system, recommend is 30 seconds**)
6. Click “Start Auto Selection” button, and the program keep select course for you.
7. If you want to stop or change some setting, click “Stop Auto Selection”.
8. The latest selection time and count will show on GUI and black window.
9. After a period of time, expired cookies must be updated so that the program can continue to run. It is recommended to update them every 12 hours.

## Tutorial For Get Your Cookie
